BHF Global Leadership Program

Learning Through Volunteerism

“Jill learned so much about herself and service to others. It has truly helped her frame her vision for college and career”.

Trish, Jill’s Mom

“I have been to Disney World at least eight times, but this was my best trip ever”
Nick

Leadership in Action

The Build Haiti Foundation (BHF) believes the future of Haiti rests in its young leaders having the resources to meet its challenges in areas of public health, education and environmental degradation. One of the most valuable resources is learning from peer leaders with different cultural perspectives. To facilitate this exposure the Maryland based Build Haiti Foundation has established the Global Leadership Program.

High school and college students, as well as professional adults, are invited to use their talents for the betterment of the Haitian people. BHF connects these participants with community-minded Haitian students committed to advancing BHF’s four pillars: education, public health, environmental sustainability and entrepreneurship. Community development and personal leadership are advanced through interactive discussions, project planning and hands-on .

Professional Partnership

Haiti has long been very dependent on its Diaspora and friends to help support its degraded infrastructure. Since 1957, due to poverty and political instability, Haiti has lost much of its intellectual capacity. There is a tremendous need for professionals who can help support the development of its infrastructure . Recruited professionals have real opportunity to mentor GLP participants in their career pursuit and desire to make a difference while supporting BHF programs.

Our Goal

The program’s goal is to provide life-changing experiences that will cultivate a global perspective and open-mindedness in students and professionals that will ultimately inspire them to become great leaders and global thinkers who will be inspired to make positive changes in their own communities.
